

# South Australian Safe Infant Sleeping Standards

## E-Learning package available March 2012

This e-learning package has been designed to ensure all staff and volunteers effectively promote and model safe infant sleep practices and environments, consistent with the South Australian Safe Infant Sleeping Standards, to parents and caregivers with infants under 12 months of age.

The Standards relate to staff in all facilities and settings and ensure parents and caregivers receive consistent and accurate information and the opportunity to observe recommended safe sleeping practices.

All participants successfully completing the e-learning package will receive a Certificate of Completion
